#### I. VISUALIZACIÓN DE CENTROIDES COMO IMÁGENES

A continuación, se muestran las imagines correspondientes a la representación de los centroides en sus 64 dimensiones originales (8x8). Así como, las agrupaciones obtenidas de la aglomeración por medio del PCA y la inicialización por medio de k-means++. Variando los tamaños del parametro k y sin normalización.

#### I-A. Clustering with PCA with k = 3

K-means clustering on the digits dataset (PCA-reduced data) Centroids are marked with white cross

Figura 1. k-means clustering on the digits dataset (PCA-reduced data) Centroids are marked with white cross

Figura 2. Images of the Centroids on 64D with k = 3

### *I-B.* Clustering with PCA with k = 10

K-means clustering on the digits dataset (PCA-reduced data) Centroids are marked with white cross

Figura 3. k-means clustering on the digits dataset (PCA-reduced data) Centroids are marked with white cross

Figura 4. Images of the Centroids on 64D with k = 10

## *I-C.* Clustering with PCA with k = 20

## K-means clustering on the digits dataset (PCA-reduced data) Centroids are marked with white cross

 $Figura~5.~k-means~clustering~on~the~digits~dataset~(PCA-reduced~data)\\ Centroids~are~marked~with~white~cross$ 

Figura 6. Images of the Centroids on 64D with k = 20
